

SPIRO® CARD X

Portable personal protection against wireless signals radiation

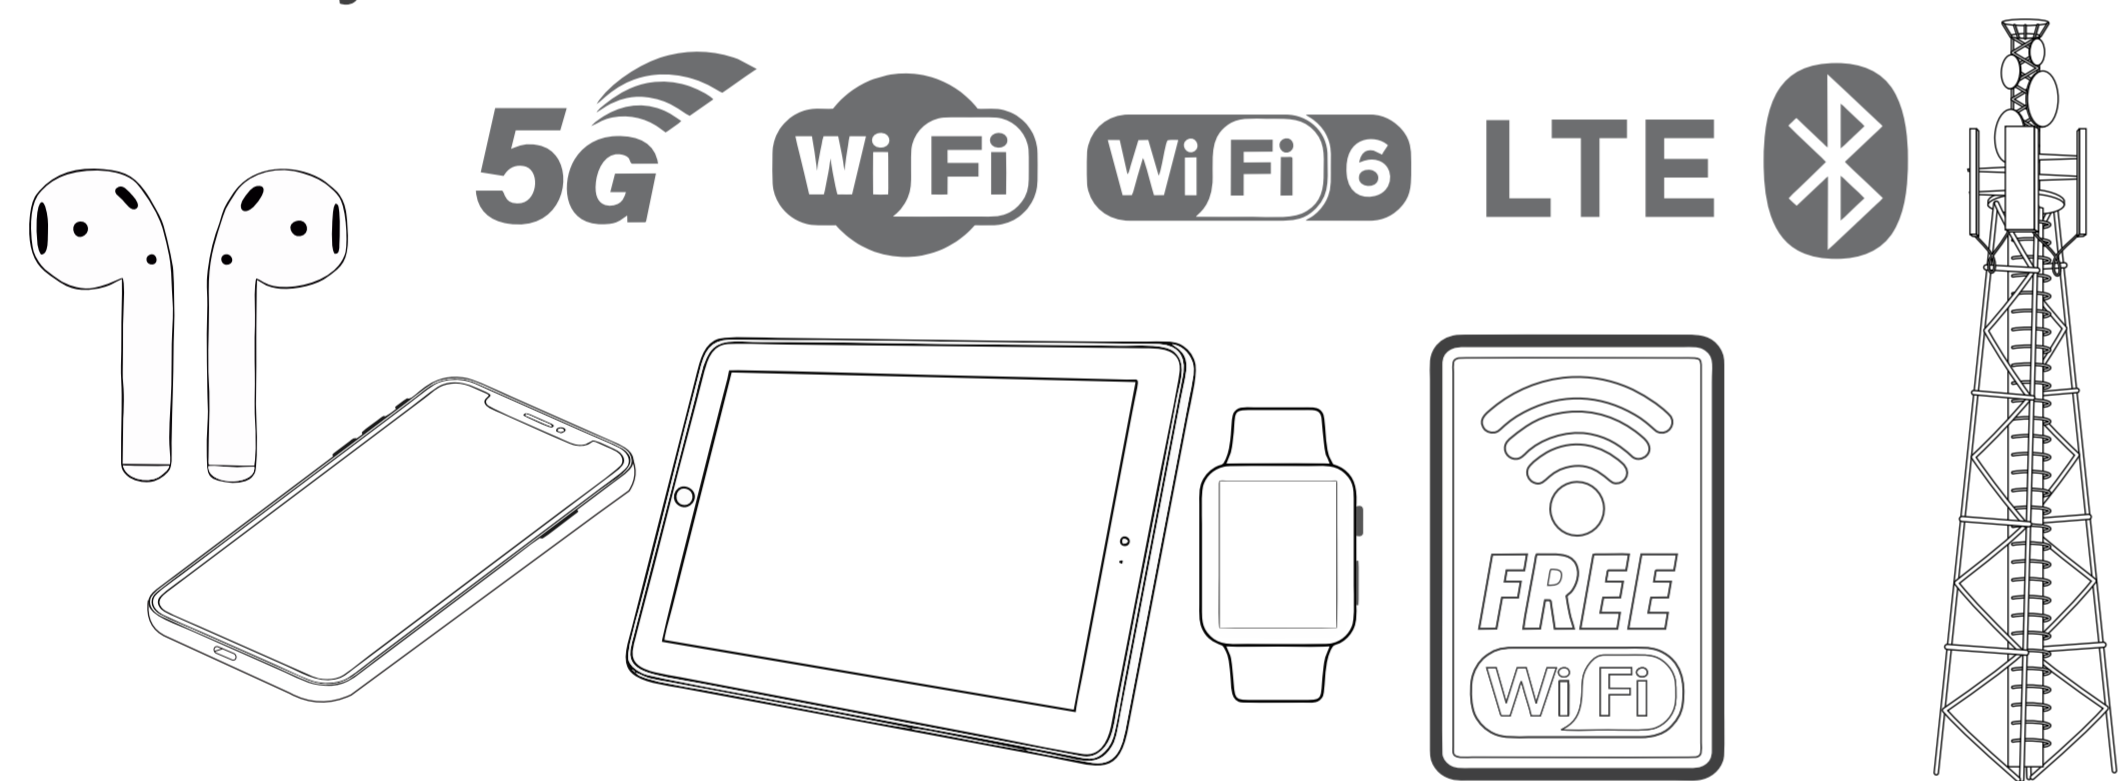

Multifrequency filter protection for RFR / ESD / LF / ELF

The **SPIRO® CARD X** is a device similar to a credit card but thicker and more resistant, designed to provide greater personal protection against EMF. It is a recommended solution for when the user is away from home and exposed to various sources of electromagnetic radiation in public environments. It is also suggested for children and teenagers who practice sports outdoors, as well as for any individual who wishes to directly carry a filtering power that ensures greater electromagnetic immunity in the environments in which they are.

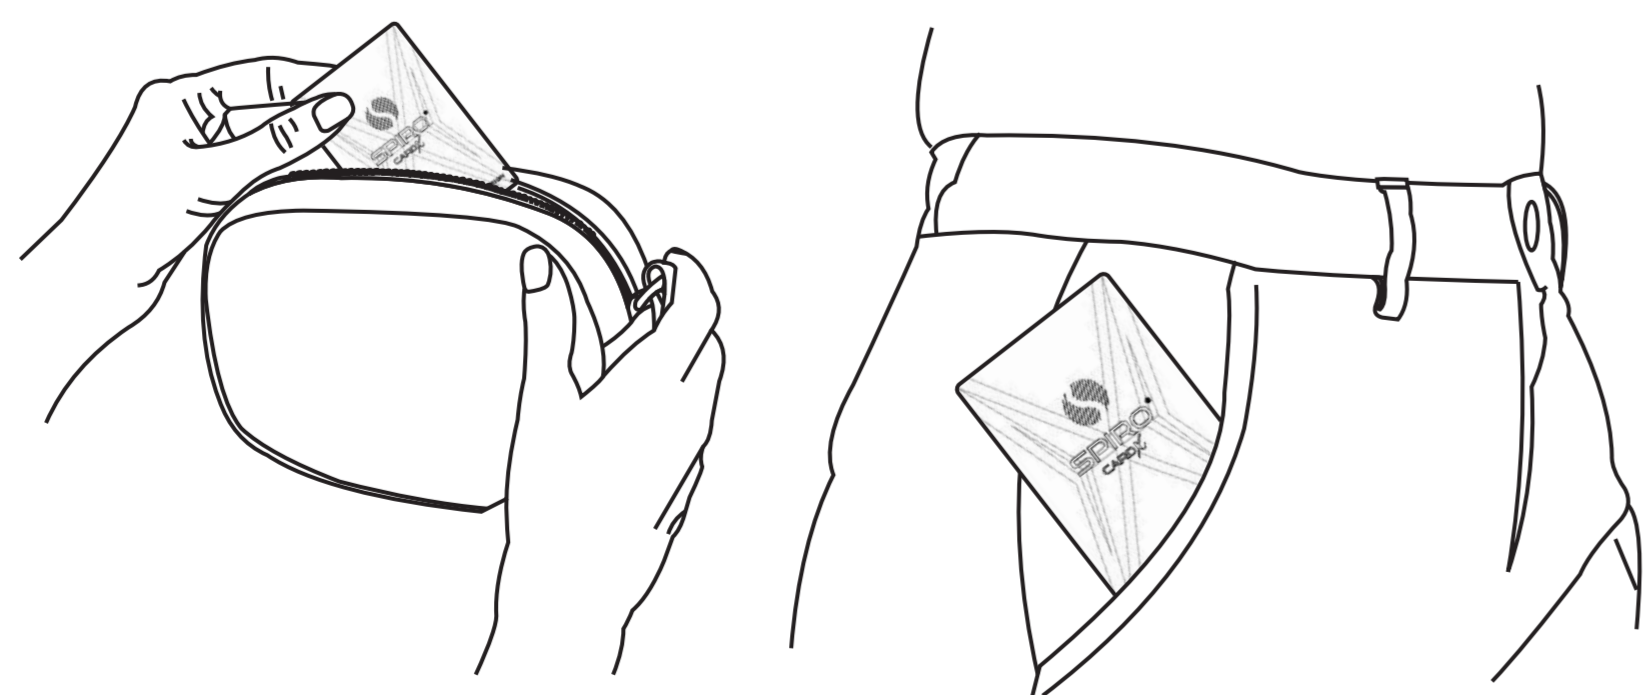

Made For

To filter and protect from harmful emissions from telecommunications and wireless signals (3G, 4G, LTE, 5G (Sub6) / WiFi 2.4, WiFi 5, Wifi 6 / Bluetooth 5) and multiple external devices in environments where you walk.

How to use it?

We recommend placing the SPIRO® CARD X in your pocket, bag, or fanny pack. Keep it near you while you move in public spaces, offices, or outdoors. It is designed for external emission protection and, unlike the SPIRO® CARD, it does not only mitigate the emissions of personal devices, but the harmful effects of external emissions, especially background radiation emissions present in places like parks and public places. Take it with you wherever you go.

How does it work?

The **SPIRO® CARD X** is based on the patented and scientifically proven NOXTAK® technology: a nanocomposite material (nanotechnology) that absorbs and filters micro-interferences and disturbances in artificially-generated EMF radiation by organizing radiation spins (Spin Radiation Organizer - SPIRO®), which makes it behave the same way as beneficial natural EMFs.

This product contains **9 broad-spectrum SPIRO® films**.

Unlike anti-radiation products, the SPIRO® CARD X is the only solution that protects you from the electromagnetic radiation around you without blocking it, allowing you to have more effective protection and your electronic devices to work better.

Benefits of the SPIRO® CARD X

- Reinforced protection field around you while you move.
- Protects against the absorption of harmful radiation.
- Filter emissions from multiple devices.
- Reduces interference on the devices you interact with.

Clinical studies have shown that users of the SPIRO® CARD X improve concentration and physical performance, as well as decrease mood swings associated with stress. An increase in such benefits was reported with the time of use. Studies were carried out on HRV (Heart Rate Variability), stress tests, and sleep quality tests. de calidad de sueño.
